Skills

- 💡 Analytical mind
- 💡 Quick adaptation
- 💡 Problem-solving aptitude

Technologies

- ⚙️ .NET, Python and SQL
- ⚙️ Angular and Typescript
- ⚙️ Azure DevOps

Languages

- 🇬🇧 English
- 🇸🇰 Slovak
- 🇷🇺 Russian

Work Experience

Full-Stack .NET Developer

Ditec, Remote | Mar 2023- Feb 2024

- Collaborated closely with IT analytics to translate business logic into actionable plans, converting UML documents into a comprehensive upgrade for a customs administration system.
- Utilized cutting-edge .NET technologies, including Dryloc, Prism, DevExpress, Moq, XUnit, Dapper, and RabbitMQ, to implement the system upgrade effectively.
- Led to the successful presentation of the upgraded system to a key client, demonstrating the project's success and technological advancement.

Full-Stack .NET Developer

Mastercard, Remote | Jun 2022- Mar 2023

- Led .NET development projects to improve digital payment systems, including Betalingsservice and LeverandørService, using Azure DevOps and Razor pages in a Scrum team environment, contributing significantly to Denmark's payment systems.
- Committed to continuous learning, addressing complex challenges, and developing international collaboration skills.
- Experienced Scandinavian work culture, focusing on both professional growth and personal well-being, with opportunities for language learning and certification.

Full-Stack .NET developer

CRIF, Remote | Apr 2021- May 2022

- Improved ASP .NET backend (MVC) and RazorEngine, enhancing application functionality and performance.
- Developed expertise in Angular.js and Entity Framework for optimizing MsSQL databases.
- Present information using data visualization techniques

Software Engineer

Logamic, Remote | Nov 2019- Apr 2021

- Developed a complete software infrastructure for managing laboratory hardware in the U.S., focusing on WPF, Prism, DevExpress, and TDD for frontend development.
- Streamlined backend operations using Python and C, enhancing system efficiency.
- Specialized in integrating advanced technologies for both frontend and backend development to improve overall system performance.

.NET developer

TSS Group, Remote | Hybrid | On-site | Feb 2015 - Mar 2021

- Directed long-term support for essential projects, showcasing comprehensive code and system knowledge. Managed a team of 7 to optimize a high-traffic web application, boosting efficiency and user satisfaction. (Remote)
- Headed a 2-person team to create a security platform for hotels and administrative buildings, utilizing ASP .NET Core, GoLang, and Python to meet various project requirements. (Hybrid)
- Acquired fundamental skills in SOAP, WSDL, and SATEL security protocols, along with proficiency in camera-specific SDKs and AI-based license plate recognition systems, improving web server functions. (On-site)

Certifications

Oracle Certified Professional Oracle Database Security Expert Certification

Education

Slovenská technická univerzita v Bratislave

Information Technology | 2019 - 2021

In 2021, I made the decision to prioritize my career, which led to discontinuing my formal education.
